Davis Edge is the online Q&A review platform that integrates seamlessly into the classroom to give students the additional practice questions they need to perform well on course and board exams.

It provides instructors with the real-time information they need to monitor, track, and assess their class' vital signs...their mastery of the content and the development of their critical-thinking skills. They'll be able to easily identify the areas in which students are struggling and intervene quickly in class and on assignments to ensure that they succeed.

- Comprehension and Retention: How well are students understanding the content?
- Participation and Engagement: Are students keeping-up with their reading and assignments?
- Test-Taking Skills: Are students adapting to NCLEX[®]-style questions and improving their test-taking skills?

You wouldn't wait until discharge to check a patient's vital signs...

So why wait until exam time to find out how your students are faring in the course?

An access code inside new printed texts unlocks Davis Edge and DavisPlus resources, including an ebook and Interactive Clinical Scenarios online.
