## **Description:**

**From the Publisher** Like many people, I go way, way back with Heinlein. My very favorite book (and one that stands out in my mind--and with much affection--to this day) is Tunnel in the Sky. I really, really wanted to go off to explore new worlds with a covered wagon and horses, like the hero does at the very end of the book. But one of the nice things about Robert Heinlein is that he's got something for everyone. One of my best friends has a different favorite: Podkayne of Mars. Go figure.

**From the Inside Flap** Engineered from the finest genes, and trained to be a secret courier in a

future world, Friday operates over a near-future Earth, where chaos reigns. Working at Boss's whimsical behest she travels from far north to deep south, finding quick, expeditious solutions as one calamity after another threatens to explode in her face.... --This text refers to the edition.
