## **Description:**

*The leading text on human physiology for more than four decades*

*A Doody's Core Title for 2017!*

For more than four decades, *Ganong's Review of Medical Physiology* has been helping those in the medical field understand human and mammalian physiology. Applauded for its interesting and engagingly written style, *Ganong's* concisely covers every important topic without sacrificing depth or readability and delivers more detailed, high-yield information per page than any other similar text or review.

Thoroughly updated to reflect the latest research and developments in important areas. *Ganong's Review of Medical Physiology* incorporates examples from clinical medicine to illustrate important physiologic concepts.

- More than 600 full-color illustrations
  - Two types of review questions: end-of-chapter and board-style
  - NEW! Increased number of clinical cases and flow charts
-
