Description:

From Bookforum House of Stone is not a work of Middle East reportage; it is, rather, a memoir, devoted to Shadid's deeply personal quest to uncover his heritage in war-torn Lebanon . . . Shadid's great skill as a journalist was that of a master storyteller, and he's never been more effective than in his final book. The work essentially belongs to the tradition of non-fiction belles lettres, as noteworthy for its style and prose elegance as for its subject matter. —Hussein Ibish

Review "Six pages into this book, I said to myself, if Anthony Shadid continues like this, this book will be a classic. And page by page, he did continue, and he wrote a honest-to-God, hands-down, undeniable and instant classic. This is a book about war, and terrible loss, and a troubled region, and his own tattered family history, yes, but it s written with the kind of levity and candor and lyricism we associate with, say, Junot Diaz and that makes the book, improbably, both a compulsive read and one you don t want to end. I have no idea how Shadid pulled all this off while talking about the history of modern Lebanon, how he balanced ribald humor and great warmth with the sorrow woven into a story like this, but anyway, we should all be grateful that he did." --Dave Eggers, author of *Zeitoun* and *What Is the What*

"Anthony Shadid s beautifully rendered memoir is a rich account of a man s gradual immersion into the world of the Middle East and the culture of the Levant, a kingdom almost unrecognizable today, where the rooms and hallways of his great-grandfather s house tell stories that will linger with every reader for decades." --André Aciman, author of *Out of Egypt*

"What a beautiful introduction to a world that I knew so little about. *House of Stone* is engaging, poignant, and funny." --Abraham Verghese, author of *Cutting for Stone*
