Description:

Review ""Exhaustive in its summations of the scores of other writers on this profoundly disturbing time in history."

—Noel Twyman, author of Bloody Treason

”

""A fascinating read."

—Booklist
" (Booklist)

From the Author I remember reading the Life magazine articles on the weekend of the assassination, about Lyndon Johnson's connections with Bobby Baker, and the latter's extensive involvement with a number of shady characters. And I began wondering about just who this guy was. The more I read, the more I came to distrust this fellow who liked to portray himself as a glad-handing, back-slapping, "regular guy." And I came to find out he was anything but those caricatures.

As a result of the failure of the "Fourth Estate" to perform their constitutional function, Lyndon Johnson is now ranked generally #9-12 in the various rankings of "greatest presidents" by academics and historians. There are a number of contemporary books by his biographers and "historians" (a misnomer, as it applies to those who have avoided the truth about Johnson) who laud him for his wonderful efforts in the area of Civil Rights, but many of them ignore the facts that:

- Johnson was in fact very racist in his views of black Americans and latinos;
- The 1964 Civil Rights Act is the same legislation that Johnson had suppressed while he was vice president and chairman of the EEO Committee under JFK.
- The act was passed on the back of JFK and Johnson had kept it stalled until he became president, then immediately pushed Congress to adopt it.

These, and many other truths about Lyndon Johnson are revealed in my book, "LBJ: The Mastermind of JFK's Assassination."

We identify numerous cases where the "benefit of the doubt" was given to Lyndon Johnson throughout his life. We start by looking back into Johnson's past, from the time he was a boy in Texas. We follow the development of his character traits throughout his school days, through college and as a young congressional apprentice in Washington.

The essential themes of the book relate to how Johnson's mental issues and criminal associations drove him to commit more brazen criminal acts, including, according to specific named sources, the ordering of multiple murders of people who "got in his way." Ultimately, the ever increasing stakes and his increasingly heinous criminal acts steeled his resolve to enlist the help of other key military and intelligence men to effect Johnson's "Executive Action" plan to assassinate John F. Kennedy.

There are many loose strings which connect all of this together and reveal the existence of a widely based conspiracy, with connections to the military and CIA networks, even though nothing was ever written by the plotters to allow direct tracing to their organizations. But there are many other traces which have become known over time:
