Description:

Review "At last, an account of the AIDS crisis from the point of view of the people most affected by it\[men, women and children of Africa, who are not simply victims but are heroes and scientists as well." (*The Daily Beast*)

"A stunning inquiry into the AIDS crisis in sub-Saharan Africa. . . . Iweala evokes the human cost of AIDS, and this is where *Our Kind of People* excels. Iweala's focus on narrative, on sharing voices and experiences, becomes an act of redemption." (*The Los Angeles Times Book Review*)

"Iweala's arguments are well reasoned. By making generous use of the voices of many Africans,

×

Iweala's writing possesses an immediacy that makes his message powerful and compelling." (*The Boston Globe*)

"Iweala tells the stories of those whose lives - and deaths - make up the numbers in a measured, accessible tone. The end of the story of HIV/AIDS is not yet written, but in *Our Kind of People* we see the beginnings of normalcy." (**Bono**)

"In this unassuming but important book, Uzodinma Iweala gives the AIDS pandemic not just a human face but a human voice. . . . Remarkable." (*The Times Literary Supplement*)

From the Back Cover

HIV/AIDS has been reported as one of the most destructive diseases in recent memory, tearing apart communities and ostracizing the afflicted. But the emphasis placed on death and despair hardly captures the many and varied effects of the epidemic, or the stories of the extraordinary people who live and die under its watch. On a remarkable journey through his native Nigeria, Uzodinma Iweala opens our minds to these stories, speaking with people from all walks of life: the ill and the healthy, doctors, nurses, sex workers, students, parents, and children. Their testimonies are by turns uplifting, alarming, humorous, and always unflinchingly candid.

At once a deeply personal exploration of life in the face of disease and an incisive critique of our ideas of health and happiness, Our Kind of People goes behind the headlines to illuminate the scope of the crisis and the real lives it affects.
