Description:

Review "Evan Davis has done an excellent job of bringing together many of the strands of thought that Defoe put into The Life and Strange Surprizing Adventures of Robinson Crusoe his interests in travel, economics, religion, and the experience of solitude and putting them into an attractive format. Professor Davis supplies examples of texts on related topics such as solitude, cannibalism, and castaway narratives, along with a group of wonderful illustrations, including a large number of Crusoe and Friday, showing everything from the sympathetic and helpful Crusoe to Crusoe the colonialist and exploiter. These are well chosen to make points about the ways in which Crusoe fits into the interests of post-colonial criticism. Professor Davis is also very good in his introduction on the ambiguity with which Crusoe treats Friday. Is he a friend, a servant, or a slave? Or all three? This will be a useful and indeed an exciting text for students at all levels." (Maximillian E. Novak)

"This edition greatly enriches the reader's appreciation of Robinson Crusoe both as a classic that transcends its historical origins and as a text that reflects a specific historical context. In each role, the novel can be viewed from many perspectives, ranging from those embodied in other writings by Defoe and his contemporaries to later ideas about psychology, economics, religion, and post-colonialism, and the introduction and appendices give the reader access to an extraordinarily copious array of these perspectives. The introduction, moreover, goes well beyond compiling viewpoints: while elegantly marshaling information, Evan R. Davis also contests received opinion and offers fresh insights. This is an extremely useful edition for students, general readers, and even those already well-acquainted with Defoe." (Oscar Kenshur) --Oscar Kenshur --This text refers to the edition.
