## **Description:**

**From Library Journal** Noll (Christian thought and church history, Wheaton Coll.) has taken the broad topic of the history of Christianity and given it a structure of turning points, focusing on individuals and events at key points in Christian history. The "turning points" put history into perspective and provide opportunity to add a human quality by often focusing on individuals while looking over particular events. Noll adds intimacy by opening each chapter with a hymn of the times and closing with a prayer of the period. When the hymn is familiar, it is particularly poignant. The book looks both at the historical roots and at the different paths the Christian church has taken, enabling readers of different backgrounds to appreciate the context for differences within the churches. This highly recommended work provides a thoughtful yet comprehensive framework for
